About the CAREC Institute

The CAREC Institute is an intergovernmental organization jointly owned by eleven member countries, dedicated to promoting economic cooperation in Central Asia and along the Silk Road through knowledge generation and sharing. Acting as a knowledge connector across five core themes—including economic stability, trade, connectivity, agriculture, and human development—the Institute ensures policy coherence to drive regional integration.

CAREC Institute Participates in 2026 CAREC Senior Officials' Meeting in Ulaanbaatar

The CAREC Institute (CI) took part in the CAREC Senior Officials' Meeting (SOM) held in Ulaanbaatar, Mongolia, from 11 to 12 June 2026.

Hosted by the Government of Mongolia, this key preparatory session for the upcoming 25th CAREC Ministerial Conference gathered senior officials from CAREC member countries and development partners. Participants focused on translating regional cooperation strategies into tangible deliverables, advancing approved cooperation initiatives, and strengthening coordination between development partners and national focal points. All joint efforts aim to further advance the implementation of the CAREC 2030 Strategic Framework and long-term regional cooperation goals.

The CI delegation was led by Director Charymuhammet Shallyyev, with Deputy Directors Dr. Li Kouqing and Dr. Kuat Akizhanov, as well as relevant division chiefs of the Institute in attendance. During official sessions, CI senior management delivered institutional presentations and shared insights in line with the meeting agenda. They elaborated on the Institute's ongoing work, including policy research, capacity development, and cross-regional knowledge exchange, and provided a brief progress update on the joint Central Asia Transport and Logistics Center with ADB.

2026 CAREC Senior Officials' Meeting in Ulaanbaatar

DATES	VENUE	HOST	CI DELEGATION
11–12 June 2026	Ulaanbaatar, Mongolia	Government of Mongolia	Director and two Deputy Directors, with division chiefs

On the sidelines of the SOM, the CI delegation held bilateral meetings with senior officials from CAREC member countries and key development partners, including Ms. Erdenetuya Darinchuluun, Director General of the Trade and Economic Cooperation Policy Department under Mongolia's Ministry of Economy and Development; Mr. Assan Darbayev, Vice Minister of National Economy of Kazakhstan; Mr. Abdulla Khashimov, Advisor to the Minister of Investments, Industry and Trade of Uzbekistan, and Mr. Su Junjie, Director of the Ministry of Finance of the People's Republic of China. The delegation also engaged with representatives from the Eurasian Fund for Stabilization and Development and the Asian Development Bank.

The bilateral discussions centered on joint research collaboration, support for and participation in the CI's upcoming flagship events, including the Tianshan Forum and the CAREC Think Tank Development Forum (CTTDF), as well as follow-up work arrangements for the Transport and Logistics Center.

China (Xinjiang) – Central Asia "Silk Road E-Commerce" Government – Enterprise Forum Convenes in Urumqi

The China (Xinjiang)–Central Asia "Silk Road E-Commerce" Government–Enterprise Forum, Urumqi, 26 June 2026.

The CAREC Institute and the Department of Commerce of Xinjiang Uygur Autonomous Region jointly hosted the China (Xinjiang)–Central Asia "Silk Road E-Commerce" Government-Enterprise Forum on 26 June 2026 in Urumqi, the People's Republic of China. Convened as a side event to the 9th China-Eurasia Expo, the forum gathered more than 120 representatives from government, academia, and industry across China and Central Asia, including Yusupjan Memet, Vice Chairman of the Xinjiang Uygur Autonomous Region Government; Asset Nussupov, Vice Minister of Trade and Integration of Kazakhstan; and Charymuhammet Shallyyev, Director of the CAREC Institute.

The forum centered on technological advancements, the digital economy, and supply chain innovation. During the keynote session, Li Kunxian of the China International Center for Economic and Technical Exchanges addressed international trade cooperation within the framework of the green and digital economy. Zhong Zeyu, Secretary-General of the China Association of Trade in Services, examined the role of artificial intelligence in advancing China–Central Asia collaboration. Meanwhile, Xu Ping, Chairperson of the China Gate Logistics Group, assessed the shifting dynamics of cross-border e-commerce amid broader industrial restructuring.

To provide businesses with actionable market intelligence, the forum featured a series of market and policy updates. Representatives from the Ministry of Economy and Commerce of the Kyrgyz Republic, the Alashankou Municipal Government, the Chongqing Cross-Border E-commerce Association, and Alibaba's 1688 platform outlined developments in their respective markets, highlighting local business environments, favorable policies, cross-border opportunities, and available digital support services.

A dedicated panel discussion convened scholars, industry leaders, and corporate executives to assess the current landscape, opportunities, and challenges in China–Central Asia cross-border e-commerce. Moderated by Li Kouqing, Deputy Director One of the CAREC Institute, the panel featured experts–Muzaffar Azamov, Chairman of the Uzbekistan E-commerce Association; Elvira Kurmanalieva, Senior Economist at the CAREC Institute; Chen Biaoxin, Vice President of Guangdong University of Science and Technology; and Zaidulla Tursun, Chairman of Xinjiang Hechuang Meixin Technology Development Co., Ltd.

Panelists offered practical, region-specific perspectives. Azamov underscored the importance of mutual regulatory recognition and the expansion of overseas and bonded warehousing. Kurmanalieva recommended streamlining procedures to facilitate the development of a regional logistics hub. Drawing on the Greater Bay Area's experience, Chen advised Xinjiang to invest in smart logistics networks and industrial infrastructure. Tursun spoke about a strategic shift in Xinjiang's growth model, from a transit-based economy to a trade-driven one, leveraging two-way logistics to lower costs. The broader discussion also emphasized the need to cultivate specialized talent, advance mutual recognition of product and brand certifications, and ensure seamless two-way logistics to deepen regional integration.

Through keynotes, market and policy updates, and panel discussions, the forum provided a platform for stakeholders to exchange insights and forge connections. The event has further strengthened cross-border e-commerce communication between China and Central Asian countries, driving forward sustained collaboration and the coordinated development of the Silk Road E-commerce initiative.

Deputy Director Li Kouqing Delivers Keynote at 9th China-Eurasia Expo Cross-Border Finance and Insurance Session

On 26 June 2026, Dr. Li Kouqing, Deputy Director One of the CAREC Institute, participated in the Special Session on Cross-Border Finance and Insurance Services at the 9th China-Eurasia Expo and delivered a keynote speech entitled "Navigating Uncertainty: The 'Dual Assurance' Path to Central Asia's Economic Development."

In his speech, Dr. Li reviewed recent developments in Central Asia's insurance markets, highlighting both the sector's strong growth potential and the need to broaden insurance penetration, diversify products, and strengthen protection against natural disasters and other risks. He also assessed the robustness of social protection systems, national disaster-response mechanisms, and regional financial safety nets. Based on this, he outlined a multi-level framework for insurance arrangements spanning the household, organizational, social, national, regional, and global levels. He emphasized that as Central Asian economies continue to develop, strengthening insurance and risk-management arrangements at multiple levels will be essential to enhancing resilience, sustainability, and shared prosperity.

Dr. Li further emphasized that while comprehensive insurance frameworks serve as the first line of defense, deepening regional cooperation serves as another crucial form of "insurance" for safeguarding economic development. He called for more practical collaboration through expanding cross-border insurance services and investment, enhancing mutual learning and capacity building among insurance institutions, and improving comprehensive regional financial arrangements.

The special session was co-organized by China Pacific Insurance (Group) Co., Ltd. and Xinjiang Bank. It was attended by Zhu Lifan, Vice Chairman of the People's Government of the Xinjiang Uygur Autonomous Region, as well as representatives from financial institutions and enterprises in China and Central Asian countries.

Turkish Ambassador to China Visits CAREC Institute

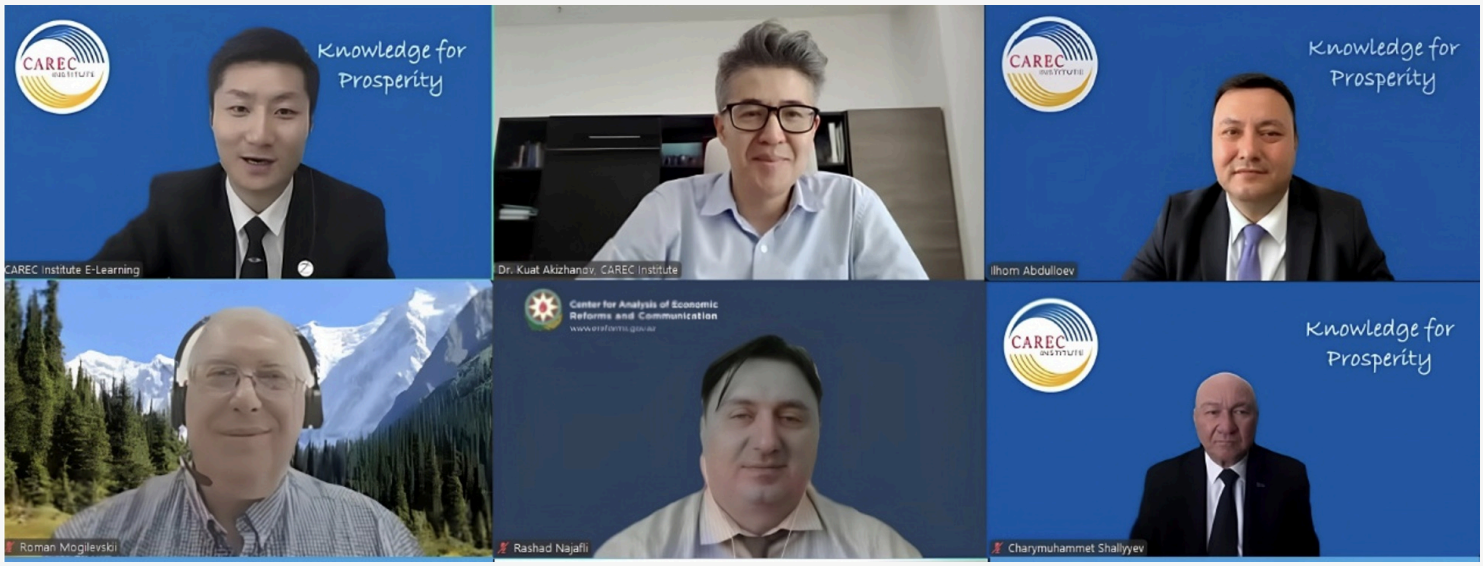
Selçuk Ünal, Ambassador of the Republic of Türkiye to China, led a delegation to visit the CAREC Institute (CI) in Urumqi. Charymuhammet Shallyyev, Director of CI, and Dr. Li Kouqing, Deputy Director One of CI, received the delegation and held bilateral talks.

During the meeting, Director Shallyyev briefed the delegation on CI's overall profile and operational priorities. Dr. Li further elaborated on CI's work to improve regional connectivity and sustainable development, highlighting its commitment to advancing knowledge creation, dissemination, and application.

Ambassador Ünal highlighted Türkiye's strategic role as a vital bridge connecting the East and the West. He shared updates on Türkiye's cooperation under the Belt and Road Initiative and the Middle Corridor, its bilateral trade ties with China, and its cooperation with other CAREC member countries. He also expressed his willingness to facilitate stronger cooperation and joint activities between Turkish research institutions and CI.

POLICY DIALOGUE

CAREC Institute Hosts CPMM Policy Dialogue to Advance Regional Connectivity



The online policy dialogue on insights from the 2024 CAREC Corridor Performance Measurement and Monitoring, 23 June 2026.

On June 23, 2026, the CAREC Institute (CI) held an online policy dialogue titled Insights from the 2024 CAREC Corridor Performance Measurement and Monitoring (CPMM). Bringing together policymakers, experts and stakeholders across the CAREC region, the event drew on key results of the 2024 CPMM data analysis to examine recent progress, prevailing constraints and forward-looking strategies, as well as identify actionable measures to boost regional connectivity and economic growth.

The dialogue, opened by Mr. Charymuhammet Shallyyev, CAREC Institute Director, and Dr. Roman Mogilevskii, Senior Regional Cooperation Economist at the Asian Development Bank (ADB), underscored the vital role of CAREC corridors in driving economic growth and regional integration, especially for landlocked countries.

The event featured thematic presentations from key speakers, including Dr. Kuat Akizhanov, Deputy Director Two from the CAREC Institute, who presented an overview of the 2024 CPMM findings and their impact. Dr. Roman Mogilevskii elaborated on regional coordination priorities for integrated connectivity. Andy Sze, a logistics practitioner from Fastraxx Group, illustrated the CPMM data collection methodology, identified prevailing cross-border trade bottlenecks, and shared practical field-based solutions. Rashad Najafli from Azerbaijan's Center for Analysis of Economic Reforms and Communication analyzed the development outlook of the Middle Corridor.

Throughout thematic deliberations, participants acknowledged that CPMM, a long-term empirical research mechanism jointly implemented by the CAREC Institute and ADB, serves as a key data tool for identifying border and transport bottlenecks and informing evidence-based connectivity policy-making. They discussed prevalent corridor-wide challenges, including insufficient regional policy coordination and inefficient customs clearance, and proposed aligning cross-border regulatory standards and streamlining clearance procedures to tackle logistical barriers. As a diversified alternative to traditional northern Eurasian transit routes, the Middle Corridor faces the same set of challenges: fragmented cross-border infrastructure planning, insufficient regional digital data-sharing frameworks, and inadequate cross-border joint investment. Participants underscored the need for targeted strategic planning to unlock the Middle Corridor's development potential.

Moving forward, the CAREC Institute remains dedicated to fostering knowledge exchange and collaboration among member countries and partners, aiming for enhanced connectivity, economic growth, and regional integration.

POLICY DIALOGUE

Policy Dialogue on Green Financing Mechanism and Challenges in the CAREC Region Successfully Held

The online policy dialogue on green financing mechanisms and challenges in the CAREC region, 2 June 2026.

On 2 June 2026, the CAREC Institute held an online policy dialogue focusing on regional green financing mechanisms and related key challenges. Faced with rising climate risks and a substantial green investment gap across the CAREC region, stakeholders are pressing ahead with low-carbon, climate-resilient development. Based on its latest research, the event brought together government officials, development partners, private sector representatives, and experts to share insights, advance regional climate action, and align local efforts with global sustainable development goals.

The dialogue was opened by Dr. Kuat Akizhanov, Deputy Director Two of the CAREC Institute, and Dr. Roman Mogilevskii, Senior Regional Cooperation Economist at the Asian Development Bank's Central and West Asia Department. Both speakers emphasized that evidence-based research is fundamental to designing and implementing more effective regional green financing policies. During the session, Dr. Akizhanov introduced the Institute's ongoing research, while Dr. Alessandro Pio of the Italian Institute for International Political Studies and a member of the CAREC Institute Advisory Council shared key perspectives on the current state and outlook of green financing development in the region.

The panel discussion featured insights from key experts, including Dr. Meruert Makhmutova, Director of the Kazakhstan Public Policy Research Center; Dr. Malkhaz Adeishvili, Specialist in Environmental and Climate Policy; Mr. Wasif Mullick, Advisor to Pakistan's CAREC National Focal Point at the Asian Development Bank; and Dr. Joseph Mik, an international consultant with extensive professional experience across Central Asia.

Panelists discussed key issues, including policies, financial instruments, project management, institutional fragmentation, weak coordination, and adaptation and mitigation strategies. The dialogue highlighted successful approaches like cross-border capital market cooperation, PPP guarantees, and the IMF Resilience and Sustainability Facility. Based on the research, participants examined how global green financing tools apply regionally, reviewed regional best practices, and underscored the importance of public-private partnerships and regulatory frameworks that support green investment. The dialogue facilitated experience sharing and practical insights to bridge the region's green investment gaps and strengthen the regional green financing system.

About the CAREC Institute Policy Dialogue

The CAREC Institute Policy Dialogue is a forum that brings together national policymakers, experts, and key stakeholders from the CAREC region and beyond for evidence-based discussions on priority development challenges.

CAREC Institute Researcher Shares Insights on AI, Innovation, and Regional Digital Cooperation at China-SCO Forum in Karamay

Dr. Asif Razzaq, Senior Research Specialist at the CAREC Institute, participated in the 2026 China-Shanghai Cooperation Organization Digital Technology Cooperation and Development Forum, held in Karamay, Xinjiang, from 11 to 12 June. The forum brought together government officials, international organization delegates, research institute experts, and industry practitioners to advance cooperation in digital technologies, capacity building, joint research, and industrial cooperation among SCO member countries.

The forum featured a main forum, thematic forums, and industrial achievement showcases. All sessions covered a wide range of topics, including green data center development, computing power infrastructure, AI applications, digital government, urban digital transformation, low-altitude economy, and space-based computing power. Collectively, these themes highlighted the expanding influence of digital technologies in boosting regional connectivity, driving industrial transformation, and supporting balanced regional economic growth.

During the main forum, Dr. Razzaq delivered a keynote speech titled "AI Development and Green Innovation in China." His remarks examined China's rapid expansion in artificial intelligence, including the growth of AI firms, wider AI adoption beyond coastal economic hubs, and the changing geography of digital innovation across China. He further connected such digital progress with China's green innovation landscape, noting how AI can support cleaner production, improve R&D efficiency, reduce managerial short-sightedness, and strengthen firm-level green innovation capacity. Supported by empirical data from Chinese cities and listed companies, he emphasized that AI development should be viewed not only as a digital growth agenda but also as a policy tool for green transformation, productivity upgrading, and more inclusive regional cooperation under both the CAREC and SCO frameworks.

Dr. Razzaq also joined other participants in a milestone ceremony celebrating 1,000 cumulative enrolments under the "Tree of SCO" digital technology training program, an initiative advancing digital capacity building among SCO partners.

The CAREC Institute's participation underscores its continued focus on evidence-based policy exchanges covering digital transformation, technological innovation and regional sustainable development. It further aligns the Institute's ongoing research agenda with key regional cooperation priorities on artificial intelligence, digital infrastructure and green innovation across regional cooperation initiatives.

The 2026 China–Shanghai Cooperation Organization Digital Technology Cooperation and Development Forum, Karamay, 11–12 June 2026.

CAREC Institute Participates in the 2026 Dialogue on Climate Resilience and Green Transition

The 2026 Climate Resilience and Green Transition Dialogue held in Jinta, Gansu Province, China.

The CAREC Institute participated in the "Sci-Tech Empowering Rural Transformation: 2026 Climate Resilience and Green Transition Dialogue" held in Jinta, Gansu Province, China. The two-day event gathered more than 100 participants from eight countries and eight international organizations. Participants explored tech-driven green solutions and cross-border cooperation models to support climate adaptation and sustainable development in dryland regions.

The event featured keynote speeches, experience sharing and thematic discussions on climate resilience and rural green development. Charymuhammet Shallyyev, Director of the CAREC Institute, moderated the panel session titled "How Climate Resilience Safeguards the Future of Rural Areas." Lei Xin, Chief of the Institute's Knowledge Management Division, joined the panel as a speaker. They exchanged views with peers on regional climate governance and cross-border green cooperation, and introduced the Institute's initiatives on climate action and inclusive green development.

Field visits were arranged for participants to learn about dryland ecological restoration and smart agriculture. The delegation visited the Ant Forest Project, where medicinal Cistanche is cultivated on the roots of the Saxaul tree. This model curbs desertification, rehabilitates degraded land, protects local ecosystems and raises rural residents' incomes. The group also visited a modern agricultural park in Jiuquan, which applies smart farming technologies to achieve water-efficient, stable and high-quality crop production. The park also scales up clean energy adoption and agricultural waste recycling to improve rural ecosystems, offering a replicable model for sustainable rural development across arid regions.

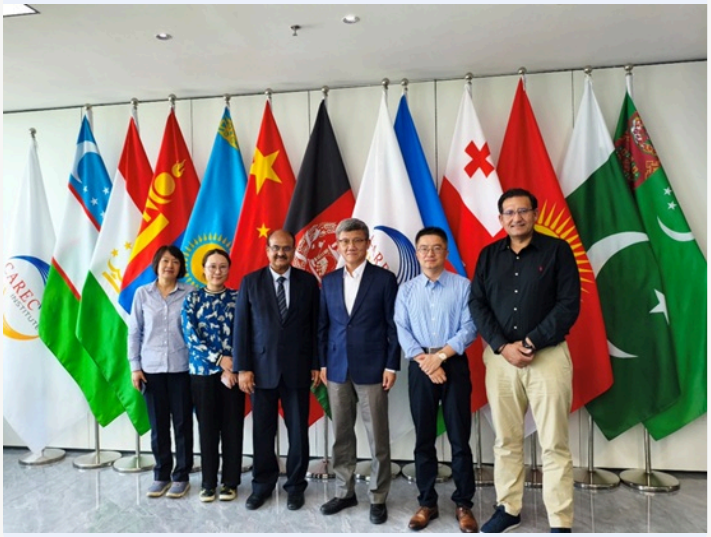
The CAREC Institute has long advanced regional climate action and green progress through research, training, and policy dialogue. It will further deepen practical cooperation among member countries, share proven green solutions, and help the region strengthen climate resilience and achieve sustainable growth.

"China's practical and scalable green development models have restored local ecosystems and improved rural livelihoods. These proven practices can help arid regions in Central Asia tackle climate challenges and pursue greener development through closer regional cooperation."

Charymuhammet Shallyyev, Director, CAREC Institute

Institutional Engagements

Partnership Talks: AIIB and Guoyan at the Institute



15 JUNE 2026

CAREC Institute Deputy Director Li Kouqing Meets with AIIB Vice President

On 15 June 2026, Dr. Li Kouqing, Deputy Director One, met with Mr. Ajay Bhushan Pandey, Vice President for Investment Solutions at the Asian Infrastructure Investment Bank (AIIB), at the CAREC Institute.

Dr. Li briefed Mr. Pandey on the CAREC Institute's recent progress and key initiatives. He proposed strengthening cooperation between the two sides in areas such as the Tianshan Forum, flagship research, research conferences, financial sector development in Central Asia, and other knowledge-sharing activities. Dr. Ghulam Samad, Chief of the Research Division, also shared his views on regional connectivity and potential avenues for joint work.

Mr. Pandey expressed AIIB's willingness to further enhance cooperation with the CAREC Institute in knowledge generation and sharing. He also introduced AIIB's recent work on digital infrastructure development.

The exchange enhanced mutual understanding and created favorable conditions for future collaborative engagement.

15 JUNE 2026

Guoyan Culture and Media Inc. Visits CAREC Institute

On 15 June 2026, a delegation from Guoyan Culture and Media Inc. (Guoyan) paid a visit to the CAREC Institute for exchange discussions. Guoyan is a think tank affiliated with China's Development Research Center of the State Council (DRC). The delegation was headed by Chairman Zhang Shiyu. Dr. Li Kouqing, Deputy Director One of the CAREC Institute, hosted the meeting.

During the talk, Dr. Li briefed the delegation on current economic trends in the CAREC region and the major opportunities and challenges it faces. He also introduced the CAREC Institute's key knowledge products and policy dialogue events.

Mr. Zhang then introduced major events organized by the DRC and Guoyan, including the China Development Forum and the China International Fair for Trade in Services, as well as its core annual reports. He proposed strengthening cooperation with the CAREC Institute through jointly organized knowledge-sharing events, policy dialogues, and co-publications. Mr. Wang Yanqing, Vice President of Guoyan, also highlighted potential areas for cooperation.

Moving forward, both sides agreed to explore opportunities for practical collaboration and conduct follow-up communications to deepen bilateral ties.

INSTITUTIONAL ENGAGEMENTS · 29 JUNE 2026

CAREC Institute Holds Exchange Meeting with Tsinghua SIGS Delegation

The Tsinghua Shenzhen International Graduate School delegation at the CAREC Institute, 29 June 2026.

On 29 June, a delegation from the Tsinghua Shenzhen International Graduate School (Tsinghua SIGS) visited the CAREC Institute. Dr. Li Kouqing, Deputy Director One of the CAREC Institute, met with the delegation and held an exchange meeting.

The visit is part of Tsinghua SIGS' student leadership program. The delegation was led by Zhu Lijing and Zhao Mengyuan from Tsinghua SIGS's Career Development Center, and included graduate students from different majors.

During the meeting, Dr. Li provided an overview of the Institute and its operational priorities. The two sides then discussed topics including regional economic development, transport and connectivity, trade facilitation, the digital economy, and youth capacity building.

Hu Xiao, Chief of Human Resources and Finance; Senior Research Specialist Yao Yixin; and Human Resources Specialist Jia Ni also attended the meeting.

About Tsinghua SIGS

Tsinghua Shenzhen International Graduate School (Tsinghua SIGS) is a public graduate education institution jointly established by Tsinghua University and the Shenzhen Municipal Government of the People's Republic of China against the backdrop of Chinese national efforts to deepen higher education reform and promote the development of the Guangdong-Hong Kong-Macao Greater Bay Area.

Upcoming Events

Policy Dialogue on Accelerating Transport and Logistics Digitalization in the CAREC Region

The CAREC Institute will host an online Policy Dialogue titled "Accelerating Transport and Logistics Digitalization in the CAREC Region," on 16 July 2026, from 16:00 to 18:00 Beijing Time (GMT+8).

The CAREC region, a vital Asia-Europe link, faces potential constraints due to non-physical barriers such as outdated customs procedures, paper-based processes, and fragmented digital systems. Despite significant investments in physical infrastructure, these inefficiencies slow trade, increase costs, and limit connectivity. The CAREC Institute's recent research outlines digitalization efforts across five CAREC member countries (Azerbaijan, Kazakhstan, the Kyrgyz Republic, Turkmenistan, Uzbekistan), and identifies interoperable national e-logistics systems and digital transport corridors as critical tools to expand trade, shorten transit times and fortify regional supply chains.

Aligned with the CAREC Transport and Digital Strategies 2030, this online dialogue aims to strengthen regional collaboration and advance the digital transformation of cross-border connectivity. Led by researchers from the CAREC Institute's research project "Digital CAREC: National e-Logistics Platforms and Digitalization of Transport Corridors," the discussions will center on three core themes: the development of integrated national e-logistics platforms, digital upgrading and interoperability of transport corridors, and regional coordination mechanisms for seamless cross-border data exchange.

Bringing together policymakers, development partners and private sector experts, the event will address key industry challenges such as fragmented digital systems and poor cross-system interoperability, and jointly formulate a practical roadmap for building efficient, resilient and fully digitalized CAREC trade and transport corridors.

Simultaneous interpretation in English and Russian will be provided.
